### **History of the Old Testament**

Taught by Rev. Jerry Munz Study Guide

**History of the Old Testament** is an online *DeafPah!* course that helps prepare church members to serve in their congregation's teaching ministry. You may download the video lessons and this study guide for free from <u>deafjesus.org</u>.

The videos for this course were originally prepared as VHS videotapes for the Deaf Institute of Theology. Because the voice translation on the original project was done poorly, we have muted the audio and corrected some of the captions.

The textbook that was the basis for this course is no longer in print. However, we have included in this student guide reference materials cited in the original videos lessons.

While you watch the videos, take notes, especially when the teacher describes a list of topics. At the end of each video lesson, reinforce what you have learned by answering the questions in this student guide.

Now please watch video lesson #1, and then answer the study guide questions and share your answers with your mentor.

#### **Chapter 1 – God's Written Record of His Unfolding Promise**

#### Lesson 1 – Introduction / The Old Testament leads us to Jesus Christ

The BIBLE has two parts – **Old Testament** and **New Testament**.

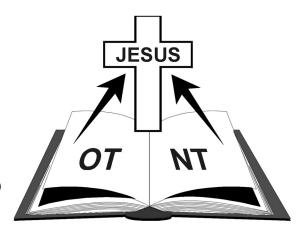

The OLD TESTAMENT is the story of a NATION – Israel (God's people).

The NEW TESTAMENT is the story of a MAN – Jesus (God's Son).

The <u>Nation</u> was started and expanded so that it could bring the <u>Man</u> (the Messiah) into the world.

The Bible centers around that Man and was written chiefly so that we can know, understand, believe and follow Him. Christ is the heart (center) of the Bible and of History.

The Old Testament and its prophecies point ahead to Christ Jesus; the New Testament points back to Christ, telling us that the Promised Messiah (Savior) has come and finished His work of saving us.

#### LESSON 1 STUDY QUESTIONS:

- 2. Which Old Testament story or Psalm is important to you?

#### Lesson 2 – God's Promise of Grace in the Old Testament

#### LESSON 2 STUDY QUESTION:

#### **Lesson 3 – The Old Testament Library**

The Old Testament has 39 books that were written by several different people over a long period of time — thousands of years! But in those many books, written by many people, over many years, we find one important message: God wants to have loving fellowship with people. Our sin has broken that fellowship. So God prepared a way to bring us back to Himself.

Many of the authors of the Old Testament identified themselves by name — King David, King Solomon, Isaiah, Jeremiah, Ezekiel, Hosea, and many more. Often they gave us information that tells us where they lived and when they wrote. Many other Old Testament writers are anonymous; they didn't tell us their names.

It is important to remember that the Bible is <u>God's Word</u>. The Bible is not just the thoughts or words of the men who wrote the books. The Bible is "<u>inspired</u>" by God. That means God gave the exact words to the men who wrote it. Only the Bible is God's word – no other book in the world is God's Word. The Bible is not the story of man's efforts to find God; it is God revealing Himself and His Will (*wish*) to people on earth.

#### **LESSON 2 STUDY QUESTIONS:**

#### **Old Testament Timeline**

Normally we when we count time by years, the numbers go <u>up</u> — 1998, 1999, 2000, 2001, etc. But we count Old Testament time *backwards*. OT year numbers go <u>down</u> — 1002, 1001, 1000, 999, 998, etc.

Old Testament time is **BC** — "Before Christ."

New Testament time is **AD** — "Anno Domini" ("The Year of Our Lord.")

This is a simple time line of important people and events in Bible history:

Notice that there is about a 400 year gap of time between the end of the Old Testament and the start of the New Testament.

**Moses** wrote the first five books of the Old Testament during Israel's Exodus from Egypt — about 1200 BC. The first book, Genesis, reports 2500 years of history before Moses' time — God creating the world, Adam and Eve, the Flood, Abraham, etc.

#### How can we know the dates of events in the Bible?

It is hard to identify exact years and dates in the Bible. However, Bible writers gave us many important clues.

- (1) Historians often can figure out the approximate years of important world events from archeological discoveries (digging up old stone and clay documents). When the Bible talks about those same events, this helps us identify dates in the Bible.
- (2) When the Bible has a genealogy (family tree), it often tells us the age of a father when his son is born. All we need to do is add the number of years in each generation.
- (3) The Bible tells us how many years (or months) each king of Israel reigned, and which year in each king's reign that important events happened.
